TOWN COUNCIL.

The meeting of the city council was a quiet one Monday night, most of the business being in connection with street improvement. It was decided to commence oiling Mound street from the S. P. track to the county road immediately and Mr. Mosher was instructed to begin the work. The Sequoia Rocking company was instructed at the same time to follow up the oiling and spread an inch coat of fine rock over the oil. Residents of the Robinson subdivision were present and asked permission to make sewer connections. On motion of Hynding the desired permission was given. Street Superintendent Diekey was instructed to lay the necessary pipe so that Mrs. Saunders could have sewer connections.

George Kreiss asked the board to allow a change in the specifications for rock for Phelps street. The matter was laid over.

Mr. Newbert of the United Gas & Electric Co. presented a corrected light bill to be substituted for the one which caused the discussion at a previous meeting. The clerk was instructed to communicate with the proper officials of the S. P. Co. to have the company represented at a conference with the street committee next Monday at 2 p. m. to discuss fixing the curb at the depot and to discuss repairs to Lovers Lane. The board then adjourned.

The Right of Way.

In the early days of western railway building, days not so long gone by as to be out of memory, there were many exciting races between rival roads for the possession of important mountain passes. Such a race, says the World's Work, was that between the Santa Fe and the Rio Grande roads for the right of way through Raton pass to New Mexico and the southwest.

Engineers and construction gangs worked in mad haste to get to it ahead of their rivals. The victory fell to the chief of the Santa Fe. When the Rio Grande cohorts arrived they found him alone in one of the big gorges, shovel in hand, slicing earth from an 8,000 foot hill.

"What are you doing here?" they asked.

"Constructing a railroad," he replied. He turned another shovel of dirt, dropped the tool and hitched up his heavy cartridge belt.

"Any one who interferes with the Santa Fe does it at his own risk," he said quietly.

First the Rio Grande men laughed, and then they raged, and then they turned and went away. Their road was cut off from the south forever.

A Bath In Bubbles.

"To take a bath at Tidis, in Russian Caucasasia, is to court a never to be forgotten experience," says one who knows. "The masseur who presides over the toilet of his patrons is a weird looking figure. His head is shaved, a rag is twisted around his waist, and his feet are dyed a beautiful red. You are seized by this individual, rubbed, pushed face downward on a marble slab, find his feet in your spine and his hands upon your shoulders. Then he grinds his feet up and down your back. They are round your neck, on your head-everywhere! Then he vaults lightly off, and in a moment, from a linen bag filled with soap, he has squeezed clouds of perfumed bubbles, and you are hidden in them from head to foot as completely as if you had fallen into a snowdrift. You are not absolutely bruised, but you are clean."-Kansas City Journal.

Wonders of the Eye.

Viewed as an optical instrument, the human eye may well be called perfect, for it is an apparatus contained in a globe less than an inch in diameter, in which is produced an image practically perfect in form and color and which can be accurately adjusted almost instantly for every distance from five inches to infinity, which is movable in every direction, has an area small enough for the detection of the most minute details and at the same time large enough for the appreciation of large objects, and which enables us to see all shades of color and to estimate distance, solidity, and to some extent, the consistency of objects, and yet this wonderful instrument, perhaps the most varied in its capabilities of any part of the body, is persistently misused and neglected. Is it any wonder that some day nature resents this treatment and leaves the offenders in total and perpetual blindness?

A Noted Talker.

Dismal stories used to be told of Lady Hester Stanhope's portentous power of talk. "I," said her hapless doctor, "have sat listening for eight, ten, twelve or thirteen hours at a time!" Mr. Way remained from 3 o'clock one afternoon till dawn next morning telet-a-tete with her, and Lady Hester once kept Mr. N. so long in discourse that he fainted away. No wonder Mr. N. soon expressed a wish to return to Europe.-London Standard.

Terrible Madry.

"Isn't it ridiculous of these scientists to say kissing is dangerous?" scornfully remarked the pretty young man.

"Why, of course, it's dangerous," replied the crabbed old bachelor.

"What disease could it possibly lead

His Devotion is intense and his
Proud of his Religion.

A traveler in Africa writes: "This is a land of religious fervor. The Muslim devotion is intense, every man is pious, and all prevailing, being not an accessory to the religion, but a part of it. It is not an essential part, whereby a man who lives at all times. A Muslim prays openly and publicly, he wears his string of beads, he records the number of his daily prayers. Notwithstanding this, to us, an inviting appearance, the religion has made and still is making great strides in Africa, and one can only attribute this to the fact that here at last is a religion of which its adherents are no way ashamed. It offers to the faithful absolute assurance of salvation and engenders that blind, unfeeling faith therein which is so comforting to the minds of pilgrims."

"Seeing a crowd of pilgrims bound Mecca patiently—nay, with pleasure, enduring the worst treatment that could be imagined meted out to her, driven slaves, one envies the crowd of faith that can engender such a disposition. Though robbed, slain, starved, herded with pestilence and subjected to countless hardships and annoyances, yet year after year they come from far and near thousands upon thousands strong on this most wonderful and far reaching of all the pilgrimages."

"At Jeddah one sees pilgrims from all corners of the globe—Dutch subjects from Java, Chinese from Peking, Russian subjects from all parts of the great empire, French subjects from Algiers, from Morocco, negroes from the western shores of Africa, from many lands and midst many tongues they come, all to meet at the thronged center of the maelstrom of the Muslim faith."

GREEK ATHLETES.

The Way They Ran and the Style They Used.

"In the foot races of the ancient Greeks," says a writer, "the shape of the stadium caused a great difference since it was not circular, but long and narrow, with one or both ends semicircular. Consequently the runners had to take a sharp turn at the end of the lap, while at the turn they were running a straight course. Evidently, a runner needed much practice, for pictures on the old vases show athletes practicing this one part of the race a kind of drill, taking each movement separately."

"In early times, when all the runners turned round the same post, the game offered opportunities for foul play, there are stories of one competitor tripping another at the post or striking him by the hair to prevent his going on. But later, in the shorter races, the runners were separated by a low wall, and the separate courses were roped off in sprint races. For the start the runners were made and still to be with the grooves at regular intervals that had to be tied at starting."

"Greek long distance men ran the most approved style of the present day. But the sprinters apparently played a considerable amount of action and took very long steps, well on to the toes. They were highly trained in arm, and the Greek writers value the arm as a preparation for war, which is supposed to explain the many running charges of the Athenians at Marathon."

A Literary Coincidence.

"My father, W. Clark Russell, Herbert Russell in telling of a coincidence, 'had finished a manuscript of his novel, 'The Death of a Hero,' which is a version of the legend of the time. He said to me, 'You will begin the story.'"

Queer Salt.

In Lapland there has no salt in the bark of the fir tree is used as a substitute. The Lapps peel the bark from the trunk of the tree, cut it into narrow strips and place it in the inner bark into a tub of water. The strips are then extremely hot. Lapland summer layers are exposed to the sun thoroughly dried; then they are made of narrow strips and placed in a tub of water. The strips are then made of fresh bark taken from trees. Deep holes are then dug, and the bark boxes are then placed in them, where they are allowed to remain for about three days. The day fires are made over the boxes and are buried and covered with a layer of earth. The boxes are then bristly for several hours. The strips are then dried and are used to it a pleasing taste and odor. The boxes are then used to hold powder, and the Lapps use it because it is so troublesome to carry."

A Matter's Trick.

"There are tricks in every trade," says a writer, "and in the case of the retail selling of goods, they are employed."

"I said to a hatter one day: 'I don't see how you can sell iron for nothing all the silk and iron.'"

"The man nodded at me gravely and said: 'We have to do it, sir, we didn't.'"

"The hatter would last too long."

"Does your wife insist on being last word?" asked the person who was asked the question.

"Not at all," answered Mr. M. "It is quite customary for me to be the last word in every conversation with every woman."

"I don't see how you can sell iron for nothing all the silk and iron."

"The man nodded at me gravely and said: 'We have to do it, sir, we didn't.'"

Fine Tract of Land.

One of the best tracts of land ever put on the market in San Mateo county will be opened up by E. F. Fitzpatrick near Menlo Park next week.

The land consists of forty acres of the old Monahan ranch and is beautifully situated and is especially adapted to home building purposes. Nearly every lot has one or more oak trees on it. The property adjoins the Stanford University grounds and is one half mile from the University buildings. It is one and one fourth miles from the Menlo Park station and about the same distance from Palo Alto. The Peninsula Electric road from San Mateo to San Jose will pass through the rear end of the property. Roy W. Cloud has taken the property and will dispose of it for Judge Fitzpatrick.

Bought a Poultry Farm.

Curran Clark has recently sold to Mr. C. H. Bacon of San Francisco the Palmyre poultry ranch situated on the San Jose road between Mayfield and Mountain View.

Mr. Ball who organized the business and who within less than two years has established a poultry farm second to none in the state has received such flattering offers from San Francisco parties to engage in the Oriental trade that he has reluctantly sold his country business and will soon leave for Japan.

Mr. Bacon with the enthusiasm of a true poultry lover enters upon his work at once and will enlarge it up in lines already laid down and continue it the home of the finest white rocks and white leghorns to be found in America.

The new proprietor will always be pleased to receive visitors. Those having the chicken fever and wanting to purchase the choicest of stock will do well to visit early at the Palmyre poultryyards.

A Neighborly Misunderstanding.

The case of the People against T. H. Thompson and his wife was tried yesterday before a jury in Judge Hanson's court. The defendants live near Belmont and were accused of disturbing the peace by J. W. Beavis of the same neighborhood. The testimony disclosed that all the neighborhood was opposed to the Thompsons who appear to be law abiding people. It was a neighborly misunderstanding and all arose over a savage dog owned by Beavis and in order to quiet him Thompson took a shot at the animal and then followed the unfriendly conversation. The jury after hearing argument by counsel on both sides acquitted the defendants of all wrong doing.

COUNTY BOARD IN SESSION.

Official Business Transacted by the Supervisors at Its Last Meeting.

At the meeting of the Supervisors Monday a proclamation was issued and ordered published, calling an election on August 15th for the purpose of voting bonds to the amount of \$150,000 for rebuilding and furnishing the courthouse. Two propositions will be submitted to the voters, one authorizing an issue of \$125,000 to restore the building with steel frame, and one of \$25,000 to provide the furniture.

The two following resolutions were adopted: authorizing the temporary transfer of funds to meet present contingencies:

In the Board of Supervisors of the County of San Mateo, State of California:

Whereas, The Fourth Road District fund and the Fifth Road District fund of the County of San Mateo is almost depleted, and there is now outstanding a large amount of claims against said respective funds; and

Whereas, It is necessary to pay said outstanding indebtedness; and

Whereas, There is now in different funds of the county other than said road district funds, sufficient money to pay said road district funds indebtedness; if temporarily transferred from said other different funds:

Now therefore be it Resolved, That the following amounts be, and the same are hereby temporarily transferred, to-wit:

The sum of \$1200 from the State Redemption fund to the Fifth Road District fund, and the sum of \$1200 from the unapportioned fund to the Fourth Road District fund:

Said moneys to be hereafter retransferred to the respective funds now drawn from:

And be it further Resolved, That the Treasurer and Auditor of said county are hereby ordered and directed to make said transfer in accordance with this resolution.

In the Board of Supervisors of the County of San Mateo, State of California:

Whereas, Certain moneys heretofore placed to the credit of the swamp land fund have been withdrawn and used by said county for county purposes; and

Whereas, There is now outstanding a claim in favor of the Hearst Reclamation District in the sum of \$2750; and

Whereas, There are no moneys now in said swamp land fund with which to pay the same:

Now therefore be it Resolved, That the sum of \$2750 be, and the same is hereby ordered drawn and transferred from the general fund in said county for the purpose of liquidating and paying said warrant now outstanding, in favor of the said Hearst Reclamation District:

And be it further Resolved, That the Treasurer and Auditor of said county are hereby directed to make said transfer in accordance with this resolution.

Bills were read and ordered paid from the Fourth and Fifth road district funds.

The following proclamation was adopted on motion of MacBain seconded by Elkerenkotter:

Whereas, The Board of Supervisors of the County of San Mateo did heretofore cause to be erected a courthouse for said county at Redwood City, which building had been completed prior to April 15th, 1906, but had not been furnished or occupied for county purposes, or by the public; and

Whereas, Said courthouse building was seriously injured on the 15th day of April, 1906; and

Whereas, Witnesses were heretofore examined before said board and evidence taken concerning the condition of said courthouse building and the probable cost of rebuilding it, and the members of this board have inspected and examined the ruins of said courthouse; and

Whereas, It appears to said board that said courthouse building is not fit for occupancy, and that it must be rebuilt and furnished before it can be occupied or used by the officers of said county, or the public and that the sum of \$125,000 will be required, and is necessary, to properly rebuild said courthouse, and

That the sum of \$25,000 will be required, and is necessary, to properly furnish said courthouse when rebuilt; and

Whereas, It further appears to said board that the judgment of this board that the public interest, welfare and necessity demand that said courthouse should be rebuilt and furnished as soon as possible, and that it is proper and expedient that the money necessary to provide and pay for rebuilding and furnishing said courthouse should be raised and provided by said county through the issuance and sale of the bonds of said county, provided the incurring of a bonded indebtedness by and of said county for such purposes shall be authorized by the proper vote of the qualified electors of said county; and

Whereas, The total amount of said proposed bonded indebtedness, \$150,000, together with the total bonded indebtedness of said county already existing, will not exceed five per centum of the taxable property of said county as shown by the last certified assessment book thereof;

Now therefore be it Resolved, and it is by this Board of Supervisors hereby now declared and ordered:

That this Board of Supervisors proposes that said county incur an indebtedness of \$125,000.00 evidenced by the bonds of said county to the amount of said sum of \$125,000; that said bonds shall bear interest at the rate of four per cent per annum, payable semi annually; that the principal and interest of said bonds shall be payable in gold coin of the United States at the treasury of said county; that the denomination and amount of said bonds shall be 125 bonds of \$1000 each to be numbered consecutively 1 to 125 inclusive, aggregating the said amount of \$125,000.00 that the number of years said bonds, or any part thereof, are to run shall be as follows:
